

Starting the Pandora software

After the software is successfully licensed, you will not be required to enter the license information again.

Pandora supports floating licenses when integrated with:

- Kodak Prinergy Workflow software 11.x or later

Pandora integrated with the Prinergy Workflow software

Prinergy Workflow starts Pandora when you create or edit a layout.

Standalone versions of the Pandora software

Whether using a software license or a floating license claimed from the Prinergy Workflow server, perform one of the following actions to start the standalone version of the Pandora software:

- On a Macintosh computer, double-click the Pandora icon from the desktop or dock (if you placed it there).
Note: You can also browse to the application in the Applications folder.
- On a Windows OS-based computer, select **Start > All Programs > Kodak > Pandora version > Pandoraversion**.
