

Deleting resources

You can delete any resource from the **ShopMap** palette.

1. If the **ShopMap** palette is not currently shown, select **Window > Show ShopMap Palette**.
2. Click **Materials** or **Equipment** to display the tabs that include the resource you want to delete.
3. Click the tab that includes the resource you want to delete.
4. Select the resource.
5. Click the **options** arrow on the **ShopMap** palette, and then select **Delete**.
6. When the **Warning** message asks you to verify that you want to delete this resource, click **Delete**.
