

# Configuring Pandora for integrated mode

You can configure Pandora to start from the Workshop user interface and have Prinergy Workflow automatically import the layouts that you create.

1. In Job Manager, select **Tools > Configure Layout Applications**.
2. Click **Add** and:
  - a. Browse to the Pandora Application folder on your workstation's system drive (Windows) or Application folder (Macintosh).
  - b. Select **RunPandora.exe** (Windows) or **Pandora** (Macintosh).
  - c. Click **Open**.
3. Check the list of Layout Applications to confirm that what you added appears in the list.
4. Click **Done**.
