

# Marks folder location

A variety of marks is available in Pandora software, and you can add custom marks. By default, your custom marks are stored in the `User` folder, which is found at the following location:

- On a Macintosh computer, in `Applications/Pandoraversion/Marks/`
- On a Windows OS-based computer, in `C:\Program Files (x86)\Kodak\Pandoraversion\Marks\`

You can keep the `Marks` folder in its default location, move it elsewhere on your computer, or move it to a network server to allow sharing among different installations of the Pandora software. You can also rename the `Marks` folder. If you move or rename the `Marks` folder, you need to identify the new location and new name for the folder in the **Preferences** dialog box.

1. On the **Preferences** > **General** tab, in **Folder Locations**, click **... (browse)** for the `Marks` folder.
2. Depending on your operating system, perform one of the following actions:
  - On a Macintosh computer, in the Choose Marks Folder dialog box, navigate to the folder where you want to keep your user marks, select the folder, and click **Open**, or click **New Folder** to create a new folder.
  - On a Windows OS-based computer, in the Browse for Folder dialog box, browse to the folder where you want to keep your marks, and click **Open**. If you want to use a new folder, create one in Windows Explorer before you open the Browse for Folder dialog box.
