

Resaving previously saved layouts with a different name or location

In Windows, the .pnd (Pandora job) extension is added to the file name automatically.

1. Select **File > Save As**.
2. In the Save As dialog box, browse to the location where you want to save the job.
3. If you want to save the job with a different name, type the new name in the **Name** box (Macintosh) or the **File name** box (Windows).
4. Click **Save**.

Note: This does not save a job ticket to the Transient Layouts folder of your Prinerger Workflow job, and is only accessible by Pandora running in standalone mode.
